

Bloodstream

Matthew Parker

Alive
Alive
Alive

You're the golden sun rays in the morning
The northern aurora in the twilight
The only color in my black and white
You make me feel alive, woah

What would I do
What would I do
Do without you
It's like you are the love in my bloodstream
What would I do
What would I do
Do without you
You make me feel
Alive
It's like you are the love in my bloodstream
You make me feel
Alive

What would I do
What would I do
Do without you
It's like you are the love in my bloodstream
What would I do
What would I do
Do without you
You make me feel
Alive

You're an open door when I feel caged
The road to adventure going anywhere
I truly believe I would disintegrate
If you weren't there, woah

What would I do
What would I do
Do without you
It's like you are the love in my bloodstream
What would I do
What would I do
Do without you
You make me feel
Alive
It's like you are the love in my bloodstream
You make me feel
Alive

What would I do
What would I do
Do without you
It's like you are the love in my bloodstream
What would I do
What would I do
Do without you

You make me feel
Alive
Alive
Alive

What would I do
What would I do
Do without you
You and I forever we will be together
What would I do
What would I do
Do without you
You make me feel
Alive
It's like you are the love in my bloodstream
You make me feel
Alive

What would I do
What would I do
Do without you
It's like you are the love in my bloodstream
What would I do
What would I do
Do without you
You make me feel
Alive
Alive
Alive

What would I do
What would I do
Do without you
You and I forever we will be together
