

Blue Diamonds

Matthew Parker

You're king of the jungle
You've conquered all you see, whoa-oh-oh
Gold chains and a Rolex
Blue diamonds on your ring, whoa-oh-oh
You're richer than Gates-y and you're famous like Jay-Z
Everybody wants to be ya
But you ain't happy, and nothing makes you happy no more

You say you're chasing happiness
But you never thought it'd come to this
Round and around and around you go, so
Where's the happiness, whoa

You're pouring it down, and you're drinking it up
But you can't ever get enough, no
You're faking a smile, but you're barely surviving
Hey, you're blue like your diamonds

Oh, oh-whoa, oh-whoa
Hey, you're blue like your diamonds, yeah
Yeah yeah, yeah yeah
Hey, you're blue like your diamonds

This world is your playground
But you're bored of everything, whoa-oh-oh
You're blue as an ocean
Like the diamonds on your ring, yeah, whoa-oh-oh
Got a Maserati in your ten-car garage-y
But none of that gon' make you happy
But you keep trying all these lies that you're buying, oh Lord

You say you're chasing happiness
But you never thought it'd come to this
Round and around and around you go, so
Where's the happiness, whoa

You're pouring it down, and you're drinking it up
But you can't ever get enough, no
You're faking a smile, but you're barely surviving
Hey, you're blue like your diamonds

Oh, oh-whoa, oh-whoa
Hey, you're blue like your diamonds, yeah
Yeah yeah, yeah yeah
Hey, you're blue like your diamonds

Ooh, ooh, yeah
Ooh, ooh, yeah
On top of the world, it's lonely there
You got all you wanted, but you don't care
Name-brand everything, people stare
But you ain't happy, no
On top of the world, it's lonely there
You got all you wanted, but you don't care
Name-brand everything, people stare
But you ain't happy, no

You're pouring it down, and you're drinking it up
But you can't ever get enough, no
You're faking a smile, but you're barely surviving
Hey, you're blue like your diamonds

Oh, oh-whoa, oh-whoa
Hey, you're blue like your diamonds, yeah
Yeah yeah, yeah yeah
Hey, you're blue like your diamonds

You say you're chasing happiness
But you never thought it'd come to this
Round and around and around you go, so
Where's the happiness?
