

Shoot me with an arrow, I'ma dodge it (dodge it)
Even at my worst, yeah, I can rock it (rock it)
I've seen anarchies, enemies, frenemies
I still fly [?] like a comet (comet)
Feelin' like a Ford with the way that I'll be focusing
I'm not waiting around, can someone notice me
How in the world is he just doin' his own thing
When everything around him bein' blown to smithereens

I won't let myself become a casualty
Turn the music up in my own galaxy
Future's on my mindset naturally
I don't know what you see

Couldn't care less if I tried to
Pushin' all the stress to the side
Yeah, I'm ridin' my wave with the tide
Promise you that nothing's gonna kill my vibe
Floatin' through the haze like a ghost
I'm neutral in the gears so I coast
Yeah, couldn't care less if I tried
Chaos never gonna kill my vibe

Satellite dancin' in the twilight (twilight)
Cyberpunk streets in my mind's eye
No competition, I am on a mission, tunnel vision
Puttin' all the havoc on standby
Neon lights shatter the shadows
Speakin' to aliens, bop-be-da-bop-yo
Seein' stars, dizzy, I'm in a daze
Dreamin' [?], far beyond a phase

I'm not gonna fall into a fantasy
Turn that music up to fight the gravity
Future's in my mindset naturally
I don't believe it's a dream after all!

Couldn't care less if I tried to
Pushin' all the stress to the side
Yeah, I'm ridin' my wave with the tide
Promise you that nothing's gonna kill my vibe
Floatin' through the haze like a ghost
I'm neutral in the gears so I coast
Yeah, couldn't care less if I tried
Chaos never gonna kill my vibe

(Nothing's gonna kill my vibe)
Floatin' through the haze like a ghost
I'm neutral in the gears so I coast
Yeah, couldn't care less if I tried
Chaos never gonna kill my vibe

Never gonna kill my, never gonna kill my vibe
Never gonna kill my, never gonna kill my
