

Darling

Matthew Parker

Say goodbye
To the way that things have been
Say hello
To the happy remember when
Cause your heart's been breaking slowly
But hope's on its way to mend

Sail into the sunset
Earth will be our conquest
Romance in our silhouette
Darling, with you
Fly into the future
Laughing at our humor
Live our great adventure
Darling, with you
Darling, darling, with you
Darling, darling, with you

Say farewell
To the sad and lonely nights
Say welcome
To the voyage beyond the sky
Cause your heart's been breaking slowly
So watch the approaching light

Sail into the sunset
Earth will be our conquest
Romance in our silhouette
Darling, with you
Fly into the future
Laughing at our humor
Live our great adventure
Darling, with you
Darling, darling, with you
Darling, with you
Darling, darling, with you
Darling, with you

Sail into the sunset
Earth will be our conquest
Romance in our silhouette
Darling, with you
Fly into the future
Laughing at our humor
Live our great adventure
Darling, with you
Darling, darling, with you
Darling, darling, with you
Darling, with you
Darling, darling, with you
Darling, darling, with you
Darling, with you
Darling, with you
