Fade

Matthew Parker

We were just kids then
Runnin' where the flowers bloom
It was so simple
Nothin' in the world to lose

Face to face with the future
Scared, but not scared to try
I feel the rain, feel the thunder
But I'm

Callin' every dream inside my head
Shootin' for the clouds, I'm not done yet
'Cause we could take on the world tonight
We could take on the world
I can feel the stardust in my veins
A million lights gonna guide my way
Feels like we could take on the world tonight
If we burn this bright, we can never fade

Runnin' so wild
Unlocked a piece of me, yeah
Fell so hard
Brushed the dirt off my knees

Face to face with the future
Scared, but not scared to try
I feel the rain, feel the thunder
But I'm

Callin' every dream inside my head
Shootin' for the clouds, I'm not done yet
'Cause we could take on the world tonight
We could take on the world
I can feel the stardust in my veins
A million lights gonna guide my way
Feels like we could take on the world tonight
If we burn this bright, we can never fade

We could take on the world tonight
We could take on the world

Face to face with the future, scared, but not scared to try
I feel the rain, feel the thunder, but I'm

Callin' every dream inside my head
Shootin' for the clouds, I'm not done yet
'Cause we could take on the world tonight
We could take on the world
I can feel the stardust in my veins
A million lights gonna guide my way
Feels like we could take on the world tonight
If we burn this bright, we can never fade

We could take on the world tonight
We could take on the world, yeah
We could take on the world tonight
If we burn this bright, we can never fade

(We can never fade)
