Find Ü

Matthew Parker

```
I've been climbing every mountain peak
I've been sailing on the seven seas
Looking for you, yeah looking for you, yeah looking for you
Lately

I've been restless, I've been sleepless
I can't let this go
I'm looking for you, yeah looking for you

I call your name into the grey, I'm gonna find you
So far away, but I'll find a way, I'm gonna find you
If ten thousand days is what it takes, I'm gonna find you
I'm gonna find you, I'm gonna find you

I've been running with the rogues and ghosts
I've been searching on the distant coasts
Looking for you, yeah looking for you, yeah looking for you
Lately

I've been restless, I've been sleepless
I can't let this go
I'm looking for you, yeah looking for you

I call your name into the grey, I'm gonna find you
So far away, but I'll find a way, I'm gonna find you
If ten thousand days is what it takes, I'm gonna find you
I'm gonna find you, I'm gonna find you

I call your name into the grey, I'm gonna find you
So far away, but I'll find a way, I'm gonna find you
If ten thousand days is what it takes, I'm gonna find you
I'm gonna find you, I'm gonna find you
```
