

You and I will fall across the sky  
We'll dare to do or die  
Before the end of time  
You and I will sail across the sky  
We'll dare to do or die  
Beyond the stars we fly  
You and I, you and I, you and I-I

Across the universe we lock eyes  
The memories flash by  
I remember the days that I loved you  
And you loved me  
So we fly, we fly, we fly (toward each other)  
Through the galaxies we cry at the top of our lungs  
'Cause love is flooding our minds

You and I will fall across the sky  
We'll dare to do or die  
Before the end of time  
You and I will sail across the sky  
We'll dare to do or die  
Beyond the stars we fly  
You and I  
You and I, you and I, oh

You and I will fall across the sky  
We'll dare to do or die  
Before the end of time  
You and I will sail across the sky  
We'll dare to do or die  
The planets watch us fly  
You and I

Beyond the stars we fly  
You and I
