

Good Memories

Matthew Parker

We grew up in a small town, and everybody knew us
You were crazy as a Betsy Bug, and I was just clueless
You said let's hit the road, we'll go together
Where's your sense of adventure

Somewhere stranded in Nevada on an empty freeway
You said this trip has got to be the best mistake we ever made
As we looked out on the desert bathed in silver moonlight
I said we won't forget these memories for the rest of our lives

Don't you worry, don't you worry, I could never forget
All the memories, all the good times, all the happy moments
We're living life, we're dying until the day we die
'Cause we won't forget these memories for the rest of our lives

We were young, we were trouble, never had a dull moment
You came up with the crazy plans, and I always just rolled with it
You said it's now or never before September
Summer won't last forever

We were walking down a boulevard one day in L.A
Only had a couple dollars and a little pocket change
I was in just to make it back home, but you said we're fine
I bet we won't forget these memories for the rest of our lives

Don't you worry, don't you worry, I could never forget
All the memories, all the good times, all the happy moments
We're living life, we're dying until the day we die
'Cause we won't forget these memories for the rest of our lives

These are the good days, mm
These are the good memories that we keep
We keep them forever
'Cause we won't forget these memories for the rest of our lives
No we won't forget these memories for the rest of our crazy lives

Don't you worry, don't you worry, I could never forget
All the memories, all the good times, all the happy moments
We're living life, we're dying until the day we die
'Cause we won't forget these memories for the rest of our lives

These are the good days, oh
These are the good memories that we keep
We keep them forever
'Cause we won't forget these memories for the rest of our lives
No we won't forget these memories for the rest of our lives
No we won't forget these memories for the rest of our crazy lives
