

# If I Were A Dinosaur

Matthew Parker

If I were a dinosaur, I would be a T. rex  
Got these tiny little arms, but my bite means death  
Don't play with me  
I'm just kiddin', wish someone would play with me  
They all run and hide 'cause they know that I bite  
But I didn't ask to have a mouthful of knives  
I'm just a lonely little dino  
The size of twenty-two rhinos

If I were a dinosaur, I would be a Pterodactyl  
Skin like a kite, I'm one floaty rascal  
Don the shades  
I'll be in the sky just catchin' rays  
I am both a pilot and a plane  
Flyin' high, but at the end of the day  
I'm just a lonely little dino  
These wings will take me where the sky flows

If I were a dinosaur, I would be a Brontosaurus  
Big like your mom and tall like the forest  
Keep away  
Or you might be flattened like a pancake  
I like eatin' leaves lots  
It's like eatin' salad in the treetops  
Sure, I'm big, but I'm just a lonely little dino  
Leavin' footprints everywhere that I go

You might hear my roar  
Shake the forest floor  
You might hear my roar  
Shake the forest floor

You might hear my roar  
Shake the forest floor
