

Lay Low

Matthew Parker

I just wanna lay low
Lock my door so I can stay home
Pillow hit me like a K.O.
I'm so tired of the stress
'Cause my mind is such a mess right now
I just wanna

Lay low, I been fallin' on the way up
Face down every time I wanna wake up
I'm concerned with what I feel like
Caught up in my feels, like, every single day
Yeah, yeah
Look out 'cause it's sadder on the inside
Surf's up, I been ridin' on the landslide
I just need some time to put the life back in my ey-ey-eyes

(Ey-eye)
Kinda just my life right now
(Ey-ey-eye)
Barely gettin' by right now

I just wanna lay low
Lock my door so I can stay home
Pillow hit me like a K.O. (K.O.)
I'm so tired of the stress
'Cause my mind is such a mess right now
I just wanna lay low
Workload isn't worth the pay, so
I flip my brain into airplane mode
I'm so tired of the stress
'Cause my mind isn't the best right now
I just wanna

Lay low, watch me switch it to the upside
Say so just to use it in a punchline
It's plain, though, what is painful
Couldn't break love 'cause I got it inside
Yeah, yeah
Stay up, keep myself from goin' under
Spaced out, I just need a little slumber
I just need some time to put the life back in my ey-ey-eyes

(Ey-eye)
Kinda just my life right now (Right now)
(Ey-ey-eye)
Barely gettin' by right now

I just wanna lay low
Lock my door so I can stay home
Pillow hit me like a K.O.
I'm so tired of the stress
'Cause my mind is such a mess right now (Right now)
I just wanna lay low (Lay low)
Workload isn't worth the pay, so
I flip my brain into airplane mode
I'm so tired of the stress
'Cause my mind isn't the best right now

I just wanna

(Yeah, yeah)

I just wanna lay low

Lock my door so I can stay home

Pillow hit me like a K.O. (Ey-eye)

Kinda just my life right now

Yeah, I just wanna lay low

Lock my door so I can stay home

Pillow hit me like a K.O. (K.O.)

I'm so tired of the stress

'Cause my mind is such a mess right now (Right now)

I just wanna lay low (Lay low)

Workload isn't worth the pay, so

I flip my brain into airplane mode

I'm so tired of the stress

'Cause my mind isn't the best right now

I just wanna
