

# Legends

Matthew Parker

Starlight twinkles in the dark  
We are young and we have time to kill  
And nights like this make us wonder who we are  
We never sleep and I know we never will

We are legends in the making  
And we don't even have to sleep to dream  
We dream, and our dreams become reality  
While the world is unaware we're changing history

So don't look back  
Never look back  
We are legends (legends)  
Never look back, never look back

Car lights dazzle tops of trees  
The stars keep watch as the valley sleeps  
But here we are overlooking city lights  
Feeling like the world is at our feet

We are legends in the making  
And we don't even have to sleep to dream  
We dream, and our dreams become reality  
While the world is spinning on, we're changing history

So don't look back  
Never look back  
We are legends (legends)  
Never look back, never look back

We are the future, we are the few sure that we'll make our mark  
We are the wishful thinkers, we are the bold and brave daydreamers  
We won't give up, we will be legends, we won't grow up  
We will be young till the day we die  
Legends written in the starry sky  
Yeah, yeah, yeah  
We are legends, yeah, yeah, yeah

So don't look back  
Never look back (never look back)  
We are legends (legends)  
Never look back, never look back  
(Legends, never look back)
