

Wide awake in a dream  
It's hard to remember the state I'm in  
Destiny in front of me  
And I'll keep on reaching 'til it begins

I wanna be right where you are  
But sometimes you feel so elusive  
It's clear to me that even when I am awake  
My dreams are still lucid  
(One, two, three, four!)

It's there on my fingertips, I can feel it, so tangible  
And I'll keep circling around my prey like an animal

A quickening inside of me  
A brand new existence is starting  
I believe that we can see  
Far after this lifetime's departed

I wanna be right where you are  
But sometimes you feel so elusive  
It's clear to me that even when I am awake  
My dreams are still lucid  
(One, two, three, four!)

Ohhh, oh yeah  
It's there on my fingertips, I can feel it, so tangible  
And I'll keep circling around my prey like an animal

Yeah  
And I won't stop till the whole world ends  
And I won't stop till my dreams can't live  
No I won't stop till the whole world ends, yeah, yeah  
And I won't stop till the whole world ends  
And I won't stop till my dreams can't live  
No I won't stop till the whole world ends, yeah, yeah
