

# Martian Party

Matthew Parker

(Alright, let's go)  
(Don't stop dreamin')

We're down in the dirt  
The scum of the earth  
Diggin' just to earn our keep  
But imagine a place  
With miles of space  
Where we could be kings and queens

What if I told you  
I had a rocket ship in the backyard  
Just waitin' for us  
What if I told you  
We could do anything  
With no one to tell us "no"

We could build our own utopia  
An Outerspace Beverly Hills  
The martian party's just begun  
In Outerspace Beverly Hills  
Don't stop dreamin'  
We could be the ones, we could be the ones  
Brave and unafraid to break through  
And build our own utopia  
In Outerspace Beverly Hills  
Don't stop dreamin'

Imagine a world  
Where we can grow old  
Actin' like we're still just kids  
Way up here on Mars  
The stars are not too far  
So close your eyes and make a wish

What if I told you  
I had a rocket ship in the backyard  
Just waitin' for us  
What if I told you  
We could do anything  
And no one could tell us "no"

We could build our own utopia  
An Outerspace Beverly Hills  
The martian party's just begun  
In Outerspace Beverly Hills  
Don't stop dreamin'  
We could be the ones, we could be the ones  
Brave and unafraid to break through  
And build our own utopia  
In Outerspace Beverly Hills

What if I told you  
I had a rocket ship in the backyard  
Just waitin' for us  
What if I told you  
We could do anything

With no one to tell us "no"

I've spent so many nights on top of the van  
Starin' up at the stars with a drink in my hand  
Wishin' I could fly away to a distant land  
Where I could do what I want and deviate from the plan  
Blast off to the Milky Way  
Watch everythin' fade away  
(What if I told you I had a shot for ya?)

We could build our own utopia  
An Outerspace Beverly Hills  
The martian party's just begun  
In Outerspace Beverly Hills  
Don't stop dreamin'  
We could be the ones, we could be the ones  
Brave and unafraid to break through  
And build our own utopia  
In Outerspace Beverly Hills

What if I told ya?  
What if I told ya?  
What if I told ya?  
(In outerspace Beverly Hills)  
Don't stop dreamin'
