Night Sky

Matthew Parker

Every time I look into the night sky
I wonder why I am even on this earth 'cause I
Know that I was born to fly, born to find You
Born for more than meets the eye
When I look into the night
When I look into the night sky
Night sky, night sky, night sky, oh
Whoa, whoa
Whoa, whoa

Every time I look into the night sky
I wonder why I am even on this earth 'cause I
Know that I was born to fly, born to find You
Born for more than meets the eye
When I look into the night
When I look into the night sky
Night sky, night sky, night sky, oh
Whoa, whoa
Whoa, whoa
