

Paradise

Matthew Parker

When I breathe my final breath, when it seems like it's the end
Remember then, that's where I begin
When I let go of the world, fly away like I'm a bird
Don't cry for me, just let me go, oh

Paradise is a world away, a world away from me
Well paradise is so close I can taste it
So let me go, I'm going to paradise
So let me go, let me go

So let me go, I'm going to paradise
So let me go, let me go

When I look you in the eyes, say a prayer, whisper goodbye
Don't shed a tear, there's nothing to fear
Like an angel up above, I'll be with the one I love
Just like a dream, don't cry for me

Paradise is a world away, a world away from me
Well paradise is so close I can taste it
So let me go, I'm going to paradise
So let me go, let me go

So let me go, I'm going to paradise
So let me go, let me go

Paradise is a world away, a world away from me
Well paradise is so close I can taste it
So let me go, I'm going to paradise
So let me go, let me go
