Skydiving

Matthew Parker

I can take you anywhere

Do you wanna fly with me?
Come on and journey through life with me
If you need space, I got a galaxy
All you gotta do is let go (Let go)
Da-da-da-da-da

When you fall asleep tonight, dream of you and I
Soaring through the heights, yeah

If you wanna fly, step into the sky
Fall in love like we're skydiving
We could take flight like it's do or die
Fall in love like we're skydiving

Like we're skydiving
Like we're skydiving
Like we're skydiving
Like we're skydiving, yeah
Like we're skydiving, yeah

I could be your aeronaut
Take you far away until we're lost
Fly over the sea like an albatross
Leave it all behind and let's go
Da-da-da-da-da

When you fall asleep tonight, dream of you and I
Sailing through the Northern lights, yeah

If you wanna fly, step into the sky
Fall in love like we're skydiving (Yeah)
We could take flight like it's do or die
Fall in love like we're skydiving

Like we're skydiving
Like we're skydiving
Like we're skydiving
Like we're skydiving, yeah
Like we're skydiving, yeah

'Cause you got me free-falling through your eyes, all this time
And I wanna fall for you all my life (All my life)

If you wanna fly, step into the sky
Fall in love like we're skydiving
We could take flight like it's do or die
Fall in love like we're skydiving

Like we're skydiving
(Do you wanna fly with me? I can take you anywhere)
Like we're skydiving (Diving, diving, diving)
Like we're skydiving (Oh-oh-oh)
Like we're skydiving (I can take you anywhere)
Like we're skydiving (I can take you anywhere)

When you fall asleep tonight, dream of you and I
Soaring through the heights
