

Can't Get It Right

Matthew Perryman Jones

I don't even know where I'm going
I don't really care where I've been
I just want to taste the moonlight
I just want to drink it in
Driftin' into silence I feel a tightenin' in my chest
I'm reachin' out for something that I already missed

Ohhhhhh

I want a love that can get me through another restless night
Stay, go, whatever I do, I just can't get it right
I just can't get it right
yeah

Counting up the lines on the highway
Like I'm counting my regrets
I'm wrestling the angels
And the devils in my head
I left you without warning, no note beside the bed
I pray you can forgive me, I hope you can forget

Ohhhhhh

I want a love that can get me through another restless night
Stay, go, whatever I do, I just can't get it right
I just can't get it right

Ohhhhhh

I want a love that can get me through another restless night
Stay, go whatever I do, I just can't get it right
I just can't get it
Oh I want a love that can get me through another restless night
Stay, go, whatever I do, I just can't get it right
I just can't get it right
ooooooo
