

Finally

Matthew Sweet

Finally
We can be together
Nobody can stop what's in motion with you
Now we know for sure that our future is true

Finally
To our perfect weather
Is there a calm that comes after the storm
Is there a calm that comes after the storm

Finally, it's the start of our world
Finally, it's the start of our world

Finally
We believed in something
Now we have come to the end of the road
Come to the end of the road

Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world

Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world
Finally, it's the start of our world
