

# Hello

Matthew Sweet

Close with your eyes  
I'm surprised when they open  
So many times  
Yours and mine might be broken

Sounding out the night (Sounding out the night)  
Trying to make things right (Trying to make things right)  
Sounding out the night (Sounding out the night)

And from the future, I've arrived again, hello  
Coming back to view the time that's holding you  
I've arrived again (Arrived)  
Hello, I'm from the future  
From exactly when, I'm not sure

Cry from the sky  
You're above every moment  
I'm down below  
And I know what will happen

Sounding out the night (Sounding out the night)  
Trying to make things right (Trying to make things right)  
Sounding out the night (Sounding out the night)

I'm from the future, I've arrived again, hello  
Coming back to view the time that's holding you  
I've arrived again (Arrived)
