

Spiral

Matthew Sweet

With a worn out soul
And a broken heart
Take one more sip
As a place to start
You get caught almost every time
When you make a show
You grab on but you don't know why
And you can't let go
Going down down down down
In a spiral
Down down down down
In a spiral

With a worn out soul
And a broken heart
Take one more sip
As a place to start
You get caught almost every time
When you make a show
You grab on but you don't know why
And you can't let go
Going down down down down
In a spiral
Down down down down
