

Stars Explode

Matthew Sweet

Stellar winds she comes ridin' upon
With a nebulous intent
Far beyond any reason for her
To be seen as heaven-sent

Stars explode
And life flows
Stars explode
And life grows

Black hole takin' everything in
She comes through on the other side
Carrying her building blocks
To the planets we will ride

Stars explode
And life flows (Stars explode)
Stars explode
And life grows

Stars explode
And life flows (Stars explode)
Stars explode
And life grows (Stars explode)
Stars explode
And life flows
