

My Favorite Part

Matthew West

This is my favorite part
To watch you sleep in my arms
To hold you close to my chest
That's the part that I love best

And always you have my heart
In this life you're my favorite part

God is real and you're the proof
'Cause only God could make an angel like you
And send you down for all the world to see
You're the proof that God loves me

And always you have my heart
In this life you're my favorite part

La La La La
La La La La
La La La La
La La La

When this world steals my smile
The journey home is the longest mile
Because I know, I know that's where you are
And in this whole wide world, you're my favorite part

And always you have my heart
In this life you're my favorite part
In this life you're my favorite part
