

# Sunshine

Matthew Wilder

I failed my ship through a stormy relation  
Tried making good of a bad situation  
I didn't know where I was when I came to

Now I'm lost on the silent  
Looking up at the sky so blue

I just need a little sunshine  
Yeah let me cry for you baby  
Yeah I need some sunshine  
I need to stop that hurricane  
A break from all that wind and rain  
I just need a little sunshine  
Yeah I need some sunshine  
Let me cry for you baby  
Yeah maybe some day you and I  
We'll forget the tears we cried  
But for now a little sunshine

Been so long since I've walked on a low light  
Forgot that life isn't bad for a good guy  
I built a ship from the wreckage of me and you

I'll set a course for the skyline  
And do whatever I want to do

I just need a little sunshine  
Yeah let me cry for you baby  
Yeah I need some sunshine  
I'm gonna cry for you baby  
I need to stop that hurricane  
A break from all that wind and rain  
I just need a little sunshine  
Yeah I need some sunshine  
Let me cry for you baby  
Yeah maybe some day you and I  
We'll forget the tears we cried

I think of you now and how I'm without you  
How strange nothing about you  
That I am for, that I would cry for

I just need a little sunshine  
Yeah let me cry for you baby  
Yeah I need some sunshine  
I'm gonna cry for you baby  
I need to stop that hurricane  
A break from all that wind and rain  
I just need a little sunshine  
Yeah I need some sunshine  
Let me cry for you baby  
Yeah maybe some day you and I  
We'll forget the tears we cried  
I just need a little sunshine  
I need some sunshine  
I'm gonna cry for you baby  
I need to stop that hurricane

A break from all that wind and rain
