

Keep The Change

Mattiel

Just what did I get into here walking on this floor?
I thought it started as a daydream but I'm not dreaming anymore

And it's the expectation, making or breaking, giving me a heart attack
And in 20 years time will it all be mine
Or will I wish that I could take it all back?

When I throw my weight
I never throw it crooked
I always throw it straight

And I've wasted all my time
Don't pay me any mind
I've wasted all my time
Don't pay me any mind
I've wasted all my time
Don't pay me any mind
I've wasted all my time

Just what did I get into here tripping on my thoughts?
If I could think of something better I promise I'd give it all I've got

And it's the expectation, making or breaking, giving me a heart attack
And in 20 years time will it all be mine
Or will I wish that I could take it all back?

When I throw my weight
I never throw it crooked
I always throw it straight

And I've wasted all my time
Don't pay me any mind
'Cause I've wasted all my time

Hey, when I throw my weight
I never throw it crooked
I always throw it straight

Your eyes like a faucet
No matter how you toss it
You made it to the end of the game
Pack up your razor
Don't do any favors
You can just keep the change
You can just keep the change

And I've wasted all my time
Don't pay me any mind
I've wasted all my time
Don't pay me any mind
I've wasted all my time
Don't pay me any mind
'Cause I've wasted all my time
