

# Lighthouse

Mattiel

The sirens are calling in  
Let me know when you can breathe again  
I am the lighthouse  
I'll lead you along

When all the fruit is sour  
And nobody cares about you  
I am the lighthouse  
I'll turn you around

I'll turn you around  
I'll turn you around

Oh come on now, get close  
You can tell me what you really want  
Oh come on now, it's not over  
Not even when the day is done

Oh come on now, get close  
You can tell me what you really want  
Oh come on now, it's not over  
Not even when the day is done

It's rained for 40 days and nights  
You're losing daylight, you're losing the fight  
I am the lighthouse  
I don't make a sound

And it's so good to see you again  
Walk up the stairs and I'll let you in  
I am the lighthouse  
I'll turn you around

I'll turn you around  
I'll turn you around

Oh come on now, get close  
You can tell me what you really want  
Oh come on now, it's not over  
Not even when the day is done

Oh come on now, get close  
You can tell me what you really want  
Oh come on now, it's not over  
Not even when the day is done

Oh come on now, get close  
You can tell me what you really want  
Oh come on now, it's not over  
Not even when the day is done

Oh come on now, get close  
You can tell me what you really want  
Oh come on now, it's not over  
Not even when the day is done
