

# Unstoppable

Matty Mullins

We're living in a broken world  
Sometimes I feel like love is on strike  
And we're so blinded by the hurt  
When the answer's right in front of our eyes

When will we learn?

You can't push it out  
Can't shut it down  
When we look around  
Denying it is impossible  
Through the night  
In the darkest times  
I believe His light still shines  
This love is unstoppable  
This love is unstoppable, yeah

They're saying that we're too far gone  
But I believe that we will see  
The promise of unfailing love  
A revolution led by One

You can't push it out  
Can't shut it down  
When we look around  
Denying it is impossible  
Through the night  
In the darkest times  
I believe His light still shines  
This love is unstoppable  
(This love is unstoppable)  
This love is unstoppable, yeah

Love unstoppable  
Anything is possible  
I want the world to know  
Love unstoppable  
Anything is possible  
I want the world to know  
Love unstoppable  
Anything is possible  
We want the world to know

You can't push it out  
Can't shut it down  
When we look around  
Denying it is impossible  
Through the night  
In the darkest times  
I believe His light still shines  
This love is unstoppable, yeah, unstoppable  
His love is unstoppable, yeah, unstoppable  
Your love is unstoppable
