

# Folder

Maty Noyes

Blast off  
Wish I never made a friend  
Shake the past off  
But it follows me again  
To the last stop  
But it's final  
First time I made up my mind so

I don't care if you ain't with it  
So much time can't make you fit it  
I feel something you don't get it  
Think you need some time to miss it

Move it all into a folder  
Probably won't look at it again  
Not for years 'til I'm much older  
Faded memories from way back when  
Something finally put me over  
First time that I saw tears in your eyes  
Never thought that I could let go  
Until we meet again

I don't know but I know that he's saving it  
Coming to an end every bit wanna savour it  
You just can't stand that I'm everybody's favorite  
Losing all your souls, where's it at, where'd it go?  
Feels like home back in your arms but I should probably leave  
Since I went away swear you can't get enough of me  
You don't gotta smoke but I still want that company  
So does anybody wanna come and smoke with me

Move it all into a folder  
Probably won't look at it again  
Not for years 'til I'm much older  
Faded memories from way back when  
Something finally put me over  
First time that I saw tears in your eyes  
Never thought that I could let go  
Until we meet again

Until we meet again  
Until we meet again  
Kinda wish that we would always stayed friends from the start  
Gotta stay apart  
All up in my feeling when I pick up this guitar  
I can't get out of bed  
I've been here since Sunday  
Think I might be dead  
Think about you everyday  
I'm talking from my meds  
Everybody getting their opinions in my head
