

Idea

Maty Noyes

O you've been on my mind a lot just like three years ago
How you would let the house burn down from leaving on the stove
If I could just tell you one thing then I could let it go
It's funny how you sold me as a

Some good listener so subliminal I'm
Too difficult way too difficult
Like a child
I've been here before I've been here before
Salt and vinegar don't you limit her mind
Too similar it's too similar
My old life
I've been here before I've been here before

I was in love with the idea caught up in the idea
Ya I took a couple drugs in the IKEA thinking it was forever
And I spent too much on the iced jeeters changed the way that I
see ya
But I didn't give up I just let it get worse hoping that you'd
leave me first uh
Hoping that you'd leave me first uh

Oh I've been getting high a lot and thinking bout the past
And if I didn't write a lot then none of it would last
I don't even believe that we'd be better off as friends
It's better off to end
(All contact honestly)

Some good listener so subliminal I'm
Too difficult way too difficult
Like a child
I've been here before I've been here before
Salt and vinegar don't you limit her mind
Too similar it's too similar
My old life
I've been here before I've been here before

I was in love with the idea caught up in the idea
Ya I took a couple drugs in the IKEA thinking it was forever
And I spent too much on the iced jeeters changed the way that I
see ya
But I didn't give up I just let it get worse hoping that you'd
leave me first uh
Hoping that you'd leave me first uh
Hoping that you'd leave me first uh
