

Spiraling Down

Maty Noyes

Oh my god look at us now
They're at the top and we're just spiralling down
So low but we don't care, we like it there
Yeah we're just spiralling down, down, down
We're just spiralling down, down, down

Yeah you're making money, spread your bread with avocado
Yeah you hit the club and then you go home with the model
All you rock is what they call Dolce and Gabana
Some days I say fuck it, I'll just move to Colorado

At least I'm pretty and I get that good dick
I got a roof over my head and I can do shit
I might not have a yacht so I take a cruise ship
Why is everything for sale, I make that money move bitch

Oh my god look at us now
They're at the top and we're just spiralling down
So low but we don't care, we like it there
Yeah we're just spiralling down, down, down
We're just spiralling down, down, down

Ask somebody famous for a selfie, for a follow
Yeah you hit the club, you got a table with some bottles
Meanwhile I'm still thinking Taco Bell is Mexicano
Working really hard but I'm still trying to win the Lotto

At least I'm pretty and I get that good dick
I got a roof over my head and I can do shit
I might not have a yacht so I take a cruise ship
Why is everything for sale, I make that money move bitch

Oh my god look at us now
They're at the top and we're just spiralling down
So low but we don't care, we like it there
Yeah we're just spiralling down, down, down
We're just spiralling down, down, down

And every rose has its thorns
But maybe you just want a sunflower
Maybe you're just a big coward
Know what you want but you're scared of the power
I'm so DFTS, yeah baby I'm down for the spiral
It's the opposite of being suicidal
Let that shit burn like you a viral

Oh my god look at us now
They're at the top and we're just spiralling down
So low but we don't care, we like it there
Yeah we're just spiralling down, down, down
We're just spiralling down, down, down
