

# Sunlight

Maty Noyes

I need you like I need sunlight  
Stare at you till I lose my sight  
Cause I'm not losing anything like you  
I need you like I need sunlight

We bright, we shine gold  
Like every colour in the rainbow  
They all say that we go, go together so damn good  
Cause we do...

I need you like I need sunlight (we do)  
I need you like I need sunlight

I ride you like I ride my bike  
All around and into the night  
You got arms that I could fall into  
I ride you like I ride my bike

We bright, we shine gold  
Like every colour in the rainbow  
They all say that we go, go together so damn good  
Cause we do...

I need you like I need sunlight (we do)  
I need you like I need sunlight (cause we do)  
I need you like I need sunlight (we do)  
I need you like I need sunlight

Oh, I'm riding on a wave  
Oh, up here in my dreams  
Oh, it's like my great escape  
Oh, I never wanna leave

I need you like I need sunlight  
I need you like air  
I need you like I need sunlight  
I need you like I need sunlight (cause we do)  
I need you like I need sunlight (we do)  
Stare at you till I lose my sight
