

Time

Maty Noyes

I remember when I got you that sweater
Didn't wanna put it on for me
It was purple, said "It's too small"
But you still look cute (aww)
I remember when you always fed me red berries and tea
We had our own thing
We talked with our eyes

But time, time, it's always gotta get by
Baby like the time we spent together
Cause you never left my mind
Thinking oh that I, I, I just wanna get high
Promised you I'd always be your angel
Baby don't ever forget about our time
Time, time, time, time, time, time, time, time

Put the record on baby
Wanna dance till our clothes fall off
You said Instagram feed is like a porno magazine
Of the girls you knew growing up
And you're my biggest muse and I live with the abuse
And I love to be confused in your arms
And the diamonds you gave me will live on forever

But time, time, it's always gotta get by
Baby like the time we spent together
Cause you never left my mind
Thinking oh that I, I, I just wanna get high
Promised you I'd always be your angel
Baby don't ever forget about our time
Time, time, time, time, time, time, time, time

I could be your sweet sweet apple pie
You could be my sweet sweet baby with a sweet face
I could be your sweet sweet apple pie
You could be my sweet sweet baby with a sweet face

But time, time, it's always gotta get by
It's always gotta get by by
It's always gotta get by, yeah
Time, time, it's always gotta get by
Time, time, get by by by
Time, time, time, time, time, time, time, time

I could be your sweet sweet apple pie
You could be my sweet sweet baby with a sweet face
I could be your sweet sweet apple pie
You could be my sweet sweet baby with a sweet face
