

# Undone

Maty Noyes

I'm still unknown, I got stuck on the ride  
I got close people telling me bye  
Level me up yeah, party an addiction  
I'm just tryna stay stoned

He said, your words cutting deep  
Your words start to creep in  
Reset your body on repeat

Please don't come un-  
Please don't come undone  
Please don't come un-  
Please don't come undone  
Please don't come un-  
Please don't come undone

I know I get heated each time we fight  
But don't say I'm careless, then say I'm wise  
And I gave you options, all of my love  
With facing the threats  
Last night you got so upset  
Last night was hard to forget

Picturing you in a moment  
I'll follow up now  
Holding bags in your eyes  
Looking for you in the lies  
Don't say  
Don't say you're losing trust

Please don't come un-  
Please don't come undone

Please don't come undone  
My heart  
Said please don't, please don't, please don't come undone  
Oh, baby, babe, please  
Please, tell me you won't

Baby, do you hate me?  
Got the feeling that there's something you're not saying  
How could you move on, move on, yeah  
Ooh

And baby, we're both crazy  
But, don't you think there's something that's worth saving?  
How could you move on, move on  
Ooh
