

## 7 (interlude)

Maude Latour

All this time, baby, driving in your car  
Air conditioning, flying through the hills  
Passin' by me quickly  
Trying anything, living it, do it for the thrill  
I left the state, you never left the city  
You said it's beautiful  
I told you not to wait and you fell in love  
I hear she's beautiful  
In seven years, will we go by?  
I can hear the song anywhere and it would make me cry  
Dance floor, the checkout line  
With my new sweetheart passing time  
Wishing you were mine

Baby, if it really is goodbye  
Can I just tell you that I had the time of my life?  
Loving you despite that we're running out of time  
And if we only have tonight  
Can you kiss me like it's fine?  
No, I don't want to die  
But I think we might  
So I'll just love you harder  
Tasting all like sugar water  
Sweet like sugar water
