

# Cursed Romantics

Maude Latour

We were in a tunnel going Superman  
I had a perfect plan to get us where we wanted to go  
Swear your skin was sparkling and glittering  
I'm down for anything  
So we became silver and gold

What do I do when they call me crazy?  
I'm so obsessive when you call me "baby"  
Your love is poison and nobody can save me

Oh no, you're my new religion, chemical addiction  
Baby, we're just cursed romantics  
Killer when we're kissin', fatalist collision  
Baby, we're just cursed romantics  
Tragedy, catastrophe, beautiful and so dramatic  
You're my new religion, chemical addiction  
Baby, we're just cursed romantics

Every time we touch I turn to poetry  
Life is a fantasy, I'll never leave your bed again  
But then I call you from a speeding car  
Oh damn, I hate this part  
Violent delights have violent ends

Oh, what do I do when your love has changed me?  
It's so impressive when you overtake me  
Your love is poison and nobody can save me

Oh no, you're my new religion, chemical addiction  
Baby, we're just cursed romantics  
Killer when we're kissin', fatalist collision  
Baby, we're just cursed romantics  
Tragedy, catastrophe, beautiful and so dramatic  
You're my new religion, chemical addiction  
Baby, we're just cursed romantics

Baby, you're the star of my dreams and my nightmares  
All my fantasies, baby, please, no, it's not fair  
If we break up, then I know I'll find you somewhere  
If we break up, yeah, I hope we never break up  
Baby, you're the star of my dreams and my nightmares  
All my fantasies, baby, please, no, it's not fair  
If we break up, then I know I'll find you somewhere  
If we break up, yeah, I hope we never break up  
I hope we never break up  
I hope we never break up  
I hope we never break up

Tragedy, catastrophe, beautiful, so dramatic  
You're my new religion, chemical addiction  
Baby, we're just cursed romantics
