

# Deep End

Maude Latour

You stand up to leave  
We're moving so fast  
Smoke fills your eyes  
While you push on the gas  
Tell you "I'm sorry"  
And you just laugh  
Damn, you look good when you're talking like that

You say I'm crazy but that's not enough  
'Cause everybody's crazy sometimes  
You call me baby, but that's just too much  
'Cause I think I could lose my mind  
Lose my mind

If you're gonna drown  
You know I'm going down  
Say you'll stick around  
I'm still glad I found you  
Love you till the deep end  
Please don't shut me out  
Let's get out of this town  
Baby you're the best  
Forget about the rest  
Love you till the deep end  
Deep end

Never tell me  
What's on your mind  
[?] when you sleep  
But I know when you lie  
All your fun stops  
It's the time of my life  
Even when you moved on  
I think of these nights

Don't say forever, that's just too much  
But you know that you're one of a kind  
It can never get better  
Even when it gets right  
'Cause I'm already out of my mind  
In my mind

If you're gonna drown  
You know I'm going down  
Say you'll stick around  
I'm still glad I found you  
Love you till the deep end  
Please don't shut me out  
Let's get out of this town  
Baby you're the best  
Forget about the rest  
Love you till the deep end  
Deep end

Whoa  
Whoa  
Whoa

Whoa

If you're gonna drown  
You know I'm going down  
Say you'll stick around  
Think I [?]  
Love you till the deep end  
Please don't shut me out  
Let's get out of this town  
Baby you're the best  
Forget about the rest  
Love you till the deep end
