

# Lovesick

Maude Latour

See you sittin' on a park bench  
Tellin' me you miss me  
Feel a buzz in my chest  
Isn't it amazing?  
That people connect for a minute or two?

Maybe we couldn't save it this time  
As badly as I want to  
As badly as I want you  
Isn't it amazing?  
That people connect for a minute or two?  
One more minute with you

Then you said to me, "Are we enemies?"  
No baby, we could never be  
You are now my memory  
And you remember me  
Think about that first day  
When I saw you in the hallway

And I said  
(Chemical) "I love you so much"  
(Metaphysical) "I love you so much, babe"  
(Temperature) And I said  
(Intermolecular) "I love you so much"  
"I love you so much, babe"

Lovesick, love you 'till my heart stops  
Love you 'till I'm carsick  
Love you 'till you're starsick  
Isn't it amazing?  
Despite all the space in the world  
I'm close to you

Then you said to me, "Are we enemies?"  
No baby, we could never be  
You are now my memory  
And you remember me  
Think about that first day  
When I saw you in the hallway

And I said  
(Chemical) "I love you so much" (Lovesick)  
(Metaphysical) "I love you so much, babe"  
(Temperature) And I said (Lovesick)  
(Intermolecular) "I love you so much"  
"I love you so much, babe"

Lovesick, for you (Chemical)  
I am, I am (Metaphysical)  
Lovesick, for you (Temperature)  
I am, I am (Intermolecular)

So as I draw these blueprints  
For how I'll save the planet  
Know I'm thinking of the day  
I saw you in the hallway

'Cause what more is there in this life  
Than who we become  
The places we go  
And the love I have for
