

Trees

Maude Latour

I was walking down the street
There were no cars around, it was quiet
A peculiar type of deep magnetic silence
I haven't found the answer but I'm trying
(Damn, I'm on my)
I've been on my phone too much
I look up at the clouds, they're always moving
And I wish that I could tell you how I'm doing
You'd know just what to say to get me through it
(Can you hear me?)

And suddenly the trees
Are breathing like my lungs are too
And it occurs to me
That I'm forever changed by you
Even though you're not here by my side
Maybe you've been listening all this time
If you're really there can you send a sign? (Send a sign)
And suddenly the trees
Are breathing and I know it's you
(And I know it's you)

And everything I write and everything I do
And everyone I meet, I always look for you
Gonna call my friends to do something fun
'Cause I see you in everything when I'm in love
(Everything is you)

And suddenly the trees
Are breathing like my lungs are too
And it occurs to me
That I'm forever changed by you
Even though you're not here by my side
Maybe you've been listening all this time
If you're really there can you send a sign? (Send a sign)
And suddenly the trees
Are breathing and I know it's you
(And I know it's you)

Everything is everything and (Everything is everything and I see you
in everything)
I see you in everything and (Everything is everything and I see you i
n everything)
Everything is everything and (Everything is everything and I see you
in everything)
I see you in everything and (Everything is everything and I see you i
n everything)
Everything is everything and (Everything is everything and I see you
in everything)
I see you in everything (Everything is everything and I see you in ev
erything)
