

# Twin Flame

Maude Latour

My twin flame for life

Babe, I know love is a rollercoaster  
But every time we fight it just brings me closer  
Move into your room so I hang a poster  
And I know I haven't always been an angel  
But you can trust me 'cause I'm gonna be faithful  
Holding your hands underneath the table

Don't be mad, you're the only one  
Don't be mad, you're the only one  
My twin flame for life

Twin flame, just talk to me  
Can you let me say sorry?  
Love a girl with a need for speed  
Party all night but I know you get lonely  
Twin flame, just talk to me  
Can you let me say sorry?  
Love a girl with a need for speed  
Party all night but I know you'll get lonely

Stay by my side, we'll be alright  
'Cause baby, you're my twin flame for life  
Stay by my side, we'll be alright  
'Cause baby, you're my twin flame for life

Who, me? Yeah (Who, me? Yeah)  
Party, party, party (Alright, alright)  
Who, me? Yeah (Who, me? Yeah)  
Party, party, party (Alright, alright)

Don't be mad, you're the only one (Don't be mad, you're the only one)  
Don't be mad, you're the only one (Don't be mad, you're the only one)  
My twin flame for life

Twin flame, just talk to me  
Can you let me say sorry?  
Love a girl with a need for speed  
Party all night but I know you get lonely  
Twin flame, just talk to me  
Can you let me say sorry?  
Love a girl with a need for speed  
Party all night but I know you'll get lonely

Stay by my side, we'll be alright  
'Cause baby, you're my twin flame for life  
Stay by my side, we'll be alright  
'Cause baby, you're my twin flame for life

T-W-I-N F-L-A-M-E  
Don't be mad, you're the only one  
The up and the down is just part of the fun  
And we're still in love

Twin flame, just talk to me  
Can you let me say sorry?

Love a girl with a need for speed  
Party all night but I know you get lonely (And we're still in love)  
Twin flame, just talk to me  
Can you let me say sorry?  
Love a girl with a need for speed  
Party all night but I know you'll get lonely

Stay by my side, we'll be alright  
'Cause baby, you're my twin flame for life
