

So Fly

MAVE:

Hey, hey

Begging for some time
Time to spend all on myself
Bet you money can't buy my smile
Not for free
Back up, make a crowd
Me, my girls are coming out
Yeah, I know that you like our style
Come with me

Girl, go hang up the telephone (Oh, yeah)
Can't take calls when you're on the throne
Set it up in flames, that's how it goes
I'm way too hot, you could never clone
Feeling blessed, I don't care
What you think or if you stare
'Cause my heart is something that you can't repair

We get so fly
We're penthouse vibin', need no invite
Girl, go look in the mirror
Yeah, watch yourself glimmer
Yeah, beauty is like an angel's weapon
We fell down from heaven
We get so fly
Live in the moment, it might pass you by
Girl, go look in the mirror
Yeah, watch yourself glimmer
Now did it hurt you when you hit the ground?
Can't keep pretty girls down, yeah

Begging for some time to
Spend all on yourself, boo
Look at my, look at my, look at my haul
This one would look great on you
Please mind your business
'Cause we will never change
Come with me

Girl, go hang up the telephone (Oh, yeah)
Can't take calls when you're on the throne
Set it up in flames, that's how it goes
I'm way too hot, you could never clone
Feeling blessed, I don't care
What you think or if you stare
'Cause my heart is something that you can't repair

We get so fly
We're penthouse vibin', need no invite
Girl, go look in the mirror
Yeah, watch yourself glimmer
Yeah, beauty is like an angel's weapon
We fell down from heaven
We get so fly
Live in the moment, it might pass you by
Girl, go look in the mirror

Yeah, watch yourself glimmer
Now did it hurt you when you hit the ground?
Can't keep pretty girls down, yeah

There's no need to pretend
Yeah, we stick to the plan
Copy us if they can
One of a kind star
Call me over for a ride, yeah
Hair blowing in the sky, yeah (Oh)
What's there to lose?

We get so fly
We're penthouse vibin', need no invite
Girl, go look in the mirror
Yeah, watch yourself glimmer (Ooh)
Yeah, beauty is like an angel's weapon
We fell down from heaven
We get so fly
Live in the moment, it might pass you by
Girl, go look in the mirror
Yeah, watch yourself glimmer
Now did it hurt you when you hit the ground?
Can't keep pretty girls down, yeah
