

Don't Talk About It

Maverick Sabre

Don't talk about it
Don't talk about it
Don't talk about it
Don't talk about it

Bullets in the sky, why tell me how we're going to live
Did you see canary in the coal mine?
Heaven in my eyes, why wouldn't it be nice to dream
Don't talk about it
Searching for the truth and you're standing in my view
Tell me where you're finding your supply
There's something in the news now tell me what should I believe

Don't talk about it
Don't talk about it
Don't talk about it
Don't talk about it
Don't talk about it

Bullets in the sky, why tell me how we're going to live
Did you see canary in the coal mine?
Heaven in my eyes, why wouldn't it be nice to dream
Don't talk about it
Searching for the truth, and you're standing in my view
Tell me where you're finding your supply
There's something in the news now tell me what should I believe

Don't talk about it
Don't talk about it
Don't talk about it
Don't talk about it

Son,
Try and live without egos
Or constantly grow cold
The world is on fire

Don't talk about it

Try and live without egos
