

## For The Weekend

Maverick Sabre

Maybe I just set it up fake  
You can stay a part of me  
Thought you somebody else  
When you were staring outta me  
We can make it through the weekend  
If we stay a part of you  
We can make it through the weekend  
If we play that part again  
And you wanna take me under  
'Cause I hear you calling me  
Move your body like the thunder  
That makes me rum wilding  
We can make it through the weekend  
If we stay a part of you  
We can make it through the weekend  
If we play that part again

Maybe I just set it up fake  
You can stay a part of me  
Thought you somebody else  
When you were staring outta me  
We can make it through the weekend  
If we stay a part of you  
We can make it through the weekend  
If we play that part again  
And you wanna take me under  
'Cause I hear you calling me  
Move your body like the thunder  
That makes me the rum wilding  
We can make it through the weekend  
If we stay a part of you  
We can make it through the weekend  
If we play that part again

Oh my my  
Since I met you  
Since I met you I've been wild  
Oh my my  
Since I met you  
Since I met you I've been wild  
Oh my my  
Since I met you  
Since I met you I've been wild  
Oh my my  
Since I met you  
Since I met you I've been wild

We can make it through the weekend  
We can make it through the weekend  
We can make it through the weekend  
We can make it through the weekend  
We can make it through the weekend  
We can make it through the weekend  
Part of you

Maybe I just set it up fake  
You can stay a part of me

Thought you somebody else  
When you were staring outta me  
We can make it through the weekend  
If we stay a part of you  
We can make it through the weekend  
If we play that part again  
And you wanna take me under  
'Cause I hear you calling me  
Move your body like the thunder  
That makes me the rum wilding  
We can make it through the weekend  
If we stay a part of you  
We can make it through the weekend  
If we play that part again
