

# Glory

**Maverick Sabre**

Told me rivers of gold would come  
Had me chasing to see  
I was kissing my only one  
Left my pain with the breeze

I rise up in the morning sun  
Take a flight with the wind  
I know better of days will come  
So I try to believe

Look there's more to be hoping  
And there's doors to be opened and I  
When it's all said and over  
They'll be oceans to wonder for miles  
Passed the clouds and the coldness  
They'll be flowers and roses so  
Keep your head up you're coping

And it feels like Glory lord  
Glory lord

And it feels like  
It's in your heart now let them now this  
It's in your heart now  
And it feels like

It's in your heart now let them now this  
It's in your heart now  
And it feels like

It's in your heart now let them now this  
It's in your heart now  
And it feels like glory lord

Told me rivers of gold would come
