

Help Me Out

Maverick Sabre

I need your faith
Come find me
I'm somewhere lost
Ashamed of myself
I'm slowly breaking
Please remind me
Of who I was
Before I left

So won't you help me out?
Won't you help me out?
So won't you help me out?
Now can you protect me from the clouds?

Take these scars
And cry out
And the harder the rain
The more that I fall
Carry me back
To the arms of my hope
'Cause I need it now
More than I ever did before

So won't you help me out?
Won't you help me out?
So won't you help me out?
Now can you protect me from the clouds?

So won't you help me out?
Won't you help me out?
So won't you help me out?
Now can you protect me from the clouds?
