

Make You Proud

Maverick Sabre

I never wanna let you down
I always wanna make you proud

I think you met me at a hard time
Heavy heart
Empty arms
Like you're sitting on me
I never said I wasn't fucked up
Never mind
Let me smile
And pretend it's all sweet
It's better if I never heal it
So you can keep selling me some false love
Imagine if I wasn't bleeding
Think of all the shit I've never thought of

And I'm not used to conceding
Like it's something I do
I think I lost the meaning

I never wanna let you down
I always wanna make you proud
I never wanna let you down
I always wanna make you proud

I sit and wonder will I make it
Every scar
Every part
Is weighing on me
Another drink another facelift
Who we are movie stars?
Don't be digging too deep
I smoked enough
To stop me dreaming
And now I'm buried in a ball of
Imagine if I wasn't bleeding
Think of all the shit I've never thought of

And I'm not used to conceding
Like it's something I do
I think I lost the meaning

I never wanna let you down
I always wanna make you proud
I never wanna let you down
I always wanna make you proud

I never wanna let you down
I always wanna make you proud
I never wanna let you down
I always wanna make you proud
