

Rolling Still

Maverick Sabre

They say
Know that I would
Wait forever
Only if you
Promise that I

I'm still
Sitting in the back still coasting
Wonder where the days been going
Sitting the back still rolling
Wonder where the days been going

Days come around
Still I'm in the ground
Tryna keep my head up
I just think you should save yourself
I made my bed
And now these
Days turned to weeks
Sorry we don't speak
Everybody's calling
But I don't know if they'll wait for me

I know you all will be better
So I'll sit and wait for an answer

I'm still sitting in the back still coasting
Wonder where the days been going
Sitting in the back
Still rolling
Wonder where the days been going

You've been working hard
I've been at home
Trying to be anything but myself
I was just hoping it helped
Heavy headlines, another deadline
Do you believe in anything?
I fell out from the far side
Couldn't see the benefits
Everybody speaking
But I don't trust the intention
Tell me what is real
If we know they all stay protected

I'm still
Sitting in the back still coasting
Wonder where the days been going?
Sitting in the back still rolling
Wonder where the days been going
Sitting in the back still coasting
Wonder where the days been going?
Sitting in the back still rolling
Wonder where the days been going
