

## Roses Ether

**Maverick Sabre**

Maybe for you  
It's okay to wait  
A new car, a new bag  
You want love but it's sold out

Yeah

What do you run like?  
What do you come from?  
Do you want to get by or do you want to get some?  
Do you want heatwaves?  
Do you want heartbreak?  
Come meet me at the hardline  
Meet me on the hardline

Give me the hard love  
Give me the true way  
I want the answer  
Don't want the Kool-Aid  
And we keep sitting down better get to my feet  
Cus something's at the end of my street

Oh, my brother stand up in the rain until the day  
All my brothers stand up in the rain now

What do you run like?  
Where do you come from?  
Do you want to get by or do you want to get some?  
Do you want heatwaves?  
Do you want heartbreak?  
Come meet me in the hardline  
Meet me on the hardline

What do you run like?  
Where do you come from?  
Do you want to get by or do you want to get some?  
Do you want heatwaves?  
Do you want heartbreak?  
Come meet me in the hardline  
Meet me on the hardline

(Oh, I don't wanna know your name)  
(I wanna love you, I-)
