

Walk Into The Sun

Maverick Sabre

Yeah, all I got to do, all I want to do
All I got to do, is walking in to the sun

I've spent too much time concentrating on the negative
Where I became irrelevant my mind state is too sensitive
And I just start to smile just for a moment
Cos I been way too tired of this commotion
Oh my life is way too precious to hold it back
with little insignificant differences I'm too grown for that
I know the half and I rode the path
No time left in this life, so gonna get over that

All I got to do, all I want to do
All I got to do, is walking in to the sun
All I got to do, all I want to do
All I got to do, is walking in to the sun

I've been in a place in my life where nice things
never came love was quite scarce
I've seen through the darkest of nightmares
Soul feels so lifeless and I know
that it is frightening it's very hard
there you are don't forget you came so far
And everyone that left you off
They can take a run and jump
I, I've had enough of all of this

Yeah, all I got to do, all I want to do
All I got to do, is walking in to the sun
All I got to do, all I want to do
All I got to do, is walking in to the sun
is walking in to the sun...

Yeah, all I got to do, all I want to do
All I got to do, is walking in to the sun
All I got to do, all I want to do
All I got to do, is walking in to the sun

All I got to do, all I want to do
All I got to do, is walking in to the sun
All I got to do, all I want to do
All I got to do, is walking in to the sun
