

War

Maverick Sabre

Why do you fall on me
Do you fall on this
And do you taste this kiss
It feels
Like it hurts again
Like it still remains
Like I'm still in the stains

But still it's war
Still inside my head
Still this war
Is still inside my head

Still running
Still running
Still running

Time
Has a loosing hand
And I'm in too deep
And there's no way back
It feels
Like it hurts again
Like it still remains
Like I'm in the stains

I'm in deeper than the rest
But still it's war
Still inside my head
Still this war
Is still inside my head

Still running
Still running
Still running

Where do I run
Like I fall deeper down
Don't you see
Where do I run
Like I'm caught deeper in
Do you see

Still running [x15]

Still it's war
Still inside my head
Still this war
Is still inside my head
