

## You Don't Even Need It

Maverick Sabre

You don't even need it  
You don't even need it  
You worry too much  
And I wish that you never would  
Wish that you never would

You don't even mean it  
You don't even mean  
All those things that you say  
When you're trying to be someone new  
Trying to be someone new

And you're watching hard love  
Leaves you lying down and vacant  
Down and vacant  
Don't forget your card love  
Did it get standing ovations?  
Did it get a standing ovation?

I don't wanna get too high  
I don't wanna get too high  
I don't wanna get too high  
I don't wanna get too

What you wanna be another movie star?  
What do you wanna be another?  
Would you wanna?  
Would you want it?  
Would you want it?  
Don't you wanna be another movie star?  
Like don't you wanna see another dancing starlight?  
Would you want it?  
Don't you wanna see another dancing starlight?

I don't wanna get too high  
I don't wanna get too high  
I don't wanna get too high  
I don't wanna get too high

I don't wanna get too high  
I don't wanna get too high  
I don't wanna get too high  
I don't wanna get too
