

Bloodbath

MAVI

Yeah

Yeah

My halo a lil rusty but I still got it

I'll pay when the bills come in had to steal knowledge

My skin made out of healed cuts and blunts sealed down the middle

I bathe in a lil blood to fix the real Mavi

My halo a lil rusty but I still got it

I'll pay when the bills come in had to steal knowledge

My skin made out of healed cuts and blunts sealed down the middle

I bathe in a lil blood to fix the real Mavi

From the south like mouth gold and shout crowded households

Fan furlong further down still brought out the crown for me

Koney black tint Tony Brax pitch tax for me

Follow me, file on your calendars Mavi finna dismantle discussion and fold the faces up

Biggest fans to niggas who keep the Fannie Lou Hamer tucked

Shells flying Franklin flung

Well fried and tried and true to taste and taking drugs

Don't get in way of my eyes, won't, well yours bruised you try to take from us

Pride us through the shingles brides will mingle end up breaking up

Don't chase down Mav and end up single married to the game for months

Ring on my pinky piquant taking to the brain because

World domination what we chasing when we waking up

Ok the game is sold and I told em we playing make it take it bruh

Get cold and you get knocked over one lay away just ain't enough

Rejected but deceit belief, for faking shit can keep the access
Passing we need the keys, smashing doors with beaten feet

Halo a lil rusty but I still got it

I'll pay when the bills come in had to steal knowledge

My skin made out of healed cuts and blunts sealed down the middle

I bathe in a lil blood to fix the real Mavi

My halo a lil rusty but I still got it
